# Python for AI - Uploading and Loading a .CSV File

Uploading a .CSV File in Jupyter Notebooks on Atlas

1. Ensure that your data is saved as a .CSV file.

2. Upload your file into the same directory as the Jupyter Notebook that you're currently using. Click the **"Upload Files"** button and follow the prompts. When you're done, you will see the file in the left-hand sidebar.

Loading a .CSV File in Jupyter Notebooks
1. Import the pandas library: Using the pandas library is one way to load the CSV file.
```
import pandas as pd
```

2. Load your CSV file: Use the pandas **read_csv** function to load your file. Replace 'filename.csv' with your file name.
```
df = pd.read_csv('filename.csv')
```
